PROFESSIONAL SUMMARY

Computer Science and Engineering student with hands-on experience building responsive web applications using HTML, CSS, and JavaScript. Familiar with React, Python, REST APIs, and AI/ML concepts. Seeking an entry-level software development opportunity to apply technical knowledge, strengthen problem-solving skills, and contribute to practical projects.

EDUCATION

B.E. – Computer Science and Engineering | Government College of Engineering, Srirangam
2023–2027 | CGPA: 8.41/10
Higher Secondary Education | Paramakudi Lions Matriculation Higher Secondary School

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React
Programming: Python, Java
Tools: Visual Studio Code, Git, GitHub, Vercel, Ollama.
Other: REST API integration, responsive web design, Local Storage, CRUD fundamentals

PROJECTS

AI-Based Tropical Cyclone Identification and Prediction — Working on an AI/ML system using satellite data for cyclone identification, classification, centre detection, intensity estimation, movement analysis, and forecasting; exploring PyTorch and deep-learning methods.

AI Chatbot — Built using HTML, CSS, JavaScript, Node.js, Express, and Ollama Cloud, with streamed responses and chat history. Live demo.

StyleAura – Fashion E-Commerce Website — Responsive fashion store with product browsing, search, filtering, cart management, and demo checkout using JavaScript and Local Storage.

Canon Camera – E-Commerce Website — Product gallery, quantity selection, cart management, and demo checkout. Live demo.

Weather App — OpenWeatherMap API integration to display temperature, conditions, humidity, and wind speed. Live demo.

Joe & Emal Bakery – Business Website — Responsive bakery website with product cards, image gallery, and contact features using HTML, CSS, and JavaScript.

SOFT SKILLS

Problem-solving • Team collaboration • Adaptability • Willingness to learn • Time management

DECLARATION

I declare that the information provided above is true and accurate to the best of my knowledge.
